One of the more common e-mails that I get regards middle class families trying to purchase homes in California. To the point, many look at their budgets and sky high home prices and wonder what is going on.

Is the middle class dream an illusion for Californians

Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
