Bachelor of Science Degree in Mechanical Engineering. The Bachelor of Science degree in Mechanical Engineering offers students the opportunity to prepare for careers in traditional, new, and emerging technologies related to the practice of Mechanical Engineering, which is a versatile and broadly-based engineering discipline.

Department of Mechanical Engineering < The University of

Course details. Years 1, 2 and 3 include many of the same core modules as the BEng (Hons) Chemical Engineering. In the final year of the MEng you study highly specialist modules at master's level, with options such as petroleum technology, process control and management.

Computer use is an integral part of the Civil Engineering curriculum. From required courses in computer programming and numerical analysis to subsequent use and development of Civil Engineering programs, students experience the use of computers as a planning, analysis, design, and managerial tools.
