universal laws of attraction pdf

The Universe exists in perfect harmony by virtue of Universal Laws which govern everything and everyone. The Law of attraction is just one of the great Laws of the Universe.

The Universal Laws and the Law of Attraction

There are seven Universal Laws by which everything in the Universe is governed. They are the common thread found in the mystical, secret teachings of the ancients and are the key to true mastery.

Newton's law of universal gravitation states that every particle attracts every other particle in the universe with a force which is directly proportional to the product of their masses and inversely proportional to the square of the distance between their centers.

Newton's law of universal gravitation - Wikipedia

Gravity (from Latin *gravitas*, meaning 'weight'), or gravitation, is a natural phenomenon by which all things with mass or energy—including planets, stars, galaxies, and even light—are brought toward (or gravitate toward) one another.
