## Njp Reader

**contributions to an artistic anthropology - monoskop** - discourses? nam june paik once said, "dada is the dna of twentieth century art and duchamp is at its center, while video art opens up a way out." **new journal of physics** - the benefits of njp to the reader are clear; permanently free access across the world to peer-reviewed, cutting-edge physics research of the highest quality. with a readership extending to over 180 countries, and amounting to more than 50000 downloads each month, njp has achieved the widest and most effective dissemination of its content by removing financial barriers to readers worldwide ... **simon o'sullivan the argument of spinoza's ethics** - 52 njp reader #1 53 njp reader #1 . its more general exploration of different spaces and places, but also different times - especially of the event - would be such a practice of what we might call post-medium medium specificity - i.e. an expanded practice that moves ... **new journal of physics - cardiff university** - the open-access journal for physics new journal of physics stability and the proximity theorem in casimir actuated nano devices r esquivel-sirvent1, l reyes and j bárcenas **plasma medicine: an introductory review** - provide the interested reader with a summary of the current status of this emerging field, its scope, and its broad interdisciplinary approach, ranging from plasma physics, chemistry and technology, to microbiology, biochemistry, **new journal of physics - icfo** - the open access journal for physics new journal of physics shaping and manipulation of light fields with bottom-up plasmonic structures c girard1, e dujardin1, g baffou2 and r quidant2 **new journal of physics - microelectronics group** - while we understand that the reader may be overwhelmed with the various definitions of anisotropy constants, we stress that the previous definitions are based on power expansions in terms of  $\cos n \psi$  in equation (1). **new journal of physics - university of michigan** - the open-access journal for physics new journal of physics rabi oscillations in a qubit coupled to a quantum two-level system s ashhab1, j r johansson1 and franco nori1,2 **experimental evidence of analogue hawking radiation from ...** - experimental evidence of analogue hawking radiation from ultrashort laser pulse filaments this article has been downloaded from iopscience. please scroll down to see the full text article. **new journal of physics** - the open-access journal for physics new journal of physics quantum electrodynamic torques in the presence of brownian motion jeremy n munday1, davide iannuzzi2 and federico capasso3,4 **new journal of physics - jagiellonian university** - the open-access journal for physics new journal of physics analysis of localization phenomena in weakly interacting disordered lattice gases t schulte1, s drenkelforth1, j kruse1, r tiemeyer1, k sacha2,3, **paper • open access related content microwave-activated ...** - microwave-activated conditional-phase gate for superconducting qubits jerry m chow1, jay m gambetta, andrew w cross, seth t merkel, chad rigetti and m steffen **experimental quantum cosmology in time-dependent optical media** - main equations, the full details of this model are given in [18] to which we refer the reader. the medium response is described via a hopfield model as a set of harmonic oscillators that are coupled to the quantized electromagnetic field by a coupling constant.
